

Financial Modelling

23rd – 27th July 2018

Premier O. R. Tambo Hotel, Kempton Park Johannesburg South Africa

Course Outcomes:

This 5 day workshop will be covering topics ranging from **Basic Intermediate and Advanced Excel**, which will enable attendees to navigate around complex financial situations. It is developed to understand best practice modelling methods and processes using MS Excel as the model building tool.

Delegates will also be given the opportunity to implement the concepts through multiple practical sessions which will demonstrate how to create models for any industry group. By attending this intensive, practical workshop, delegates will also be addressing Investment concepts (PV, IRR, NPV, WACC MIRR) and Understanding Visual Basic for Applications (VBA)

Who Should Attend?

- Chief Directors and CFOs
- Finance Directors and Managers
- Deputy and Assistant Directors
- Directors and Line Managers
- Corporate and Regional Treasurers
- Treasury Managers
- Senior Accountants
- Risk Managers
- Internal Audit
