## About your Presenter:

### BPL Hons. B.Econ

Your Facilitator has over 29 years of experience in various roles both within the private and public sector and is currently an executive trainer in Management, Leadership, Finance and Business at an established Business School. His capacity spreads from extensive work he has done at the South African Police Service (SAPS), as an Internal Consultant and Change Management Specialist. At the Technikon Southern Africa he focussed on Management, Leadership and Finance for Senior Management. His area of expertise includes Strategy, Risk, Business Management, Audit and Financial Strategy. As a trainer and facilitator, He has presented various training and facilitated workshops on Project Management, Audit Management, Risk, SCM, Reporting, Planning and Budgeting to more than 27 000 participants during his career

This course will provide you with competencies on how to optimise the management of your fleet and how to remove and minimise risks associated with fleet investments, improve efficiency, increase productivity and reduce overall operational and staff costs. This course will also highlight ways to ensure fleet operation complies with the government legislation and ways to control human factors that attribute to unnecessary rise in operation cost.
